MODEL 4105A Soft Case Model
MODEL 4105A-H Hard Case Model

The Kyoritsu's range of earth resistance testers have been enjoying worldwide popularity and longtime sales as a high quality and high performance test instrument. Our original constant current circuit to minimize the effect of commercial frequencies and a synchronous rectifying circuit always ensure a stable instrument performance. Advanced functions include self-check of the resistance of auxiliary earth spikes and testing of earth voltage, etc. All of these features ensure trouble free operation in the field.

Features

- Dust and drip proof.(designed to IEC 529 IP54)
- In addition to the facility for precision measurement, test leads for simplified two wire measuring system also supplied as standard accessories. (unit can be hung from the neck for simplified measurement)
- Designed to meet IEC61010-1 safety standard.
- Capable of measuring earth voltage.
- Automatic warning when resistance of auxiliary earth spikes is in excess of tolerance.
- Small and lightweight. Shock resistant new case material.
- 2mA measuring current permits earth resistance tests without tripping earth leakage current breakers in the circuit under test.
