

HANNA is one of the few producers to offer calibration solutions in packages for 500 mL for lab and field applications. Our packaging has been designed to keep light from damaging the solution.

\*TDS conversion factor 4-4-2: 0.65 ppm = 1  $\mu$ S/cm (approximately).

### Order Information:

20 Sachets, (10 pH 7.01, 10 1500 ppm)
